

Sprint 4 Report

Product name: Chaptre,
Version 1.0,
Revision: Mar, 11, 2025

High level goals:

Enhance reader experience with rating, bookmarking, and subscription features. We would like the readers to rate and comment on stories, bookmark their favorites to read later, and subscribe to authors or genres.

Things we didn't like:

- Our original css structure so we made a css file for each page that uses css
- Small bugs in existing features
- Going back and adding more fields to the existing database, messes up existing documents in the database

Work Completion Rate:
