

Sprint 3 Report

Product name: Chaptre,
Version 1.0,
Revision: Feb, 27, 2025

High level goals:

Have Users be able to search for a specific book by Name, Author, or genre.

Things we didn't like:

- Lots of small bugs in features that are already implemented

Things we should start doing:

- Stay on top of the Jira board
- Feedback sessions where we can talk about bugs that we find

Things we should keep doing:

- Continue to fix bugs and make small CSS improvements and fixes
- Polish existing features
- Keep up the meeting schedule

Work Completion Rate:

Story Points Completed:

- ☐ As a reader interested in a specific story I need to be able to search for it by name so that I can easily find what I'm looking for. [3, High]
 - ☐ Search Title Indexing, 6 hours
- ☐ As a reader looking for a specific author, I can search for the author by name. [3, High]
 - ☐ Search Author name Indexing, 4 hours
- ☐ As an avid horror fan, I should be able filter stories by using the horror tag. [3, Medium]
 - ☐ Genre tagging, 2 hours
 - ☐ Tag based filtering, 2 hours
- ☐ As a busy person I need to be able to save my drafts and come back to them later so that I can write my stories/chapters in increments [8, High]
 - ☐ Create a save as draft feature/button, 2 hours
 - ☐ Create a portion in the app which shows the drafts, 2 hours

Additional Tasks Completed:

- Remove horizontal scroll bug, 1 hour
- Navigate to home page after login/sign up instead of just sitting there, 1 hour
- Add default profile pic, 1 hour

- Center home page elements in case the number of books per page is not enough to fill it, 1 hour
- Text viewer for read book - concatenate the text so it doesn't go off screen, 1 hour
- Edit book - add titles for fields, 1 hour
- Add delete popup confirmation for chapter delete, 1 hour
- Add drag and drop reordering with up/down arrows, 3 hours
- Add pagination for book cards, 1 hour
